NAVEEN S HITNALLI

Full-Stack Developer

+91-8904912385 ◇ naviihitnalli@gmail.com ◇ India ◇ LinkedIn ◇ GitHub ◇Portfolio

Summary

MCA student and Python Full Stack Developer with hands-on experience through multiple internships in Web Development and AI/ML. Skilled in building scalable applications using Flask, FastAPI, Django, and MERN stack, with strong expertise in backend development, REST APIs, and database management (PostgreSQL, MySQL, MongoDB). Proficient in Python, Machine Learning, Data Science, Pandas, NumPy, Supabase, and modern tools including Git, Docker, and CI/CD. Seeking backend, full-stack, or AI/ML roles to develop efficient and scalable solutions.

SKILLS

- **Programming Languages** - Python, JavaScript, MERN Stack
- **Web Frameworks & APIs** - Flask, Next.js, Fast API, RESTful APIs, Jinja2, React.js, Node.js, TypeScript.js.
- **Databases** – MySQL, PostgreSQL, MongoDB.
- **AI/ML:** Machine Learning, Data Science, Pandas, NumPy, Scikit-learn.
- **Tools & DevOps** - Git, GitHub, VS Code ,Supabase , Postman, Docker (basic).
- **Professional Skills -** API Integration, Debugging, Agile Development, Unit Testing, CI/CD, CRUD Operations, Authentication (JWT/OAuth), Deployment, Code Review, Communication Skills, Strong time management, teamwork in agile environments,strong problem-solving and critical thinking abilities.

Work Experience

ERA Foundation (MakeX Program), Hubballi

Data Science & AI/ML Intern 02/2026-Present

Developed an AI Shopping Assistant for personalized product recommendations using Machine Learning
Performed data preprocessing, feature engineering, and model building using Python
Implemented recommendation system (content-based/collaborative filtering)
Utilized Pandas, NumPy, Scikit-learn for data analysis and model training.

Infotact Solutions, Bengaluru

Web Development Intern (MERN) 05/2025-08/2025

Developed responsive web applications using React.js, Node.js, HTML, CSS, JavaScript
Optimized performance and resolved bugs to enhance user experience
Contributed to design, development, testing, and deployment phases.

APlus Topper, Hyderabad

Python Developer Intern 11/2024-05/2025

Built backend modules using Django and Flask for scalable applications
Designed RESTful APIs, improving system efficiency by 30%
Optimized PostgreSQL queries, reducing API response time.

Tech Fortune Technologies, Bengaluru

Python Developer Intern (Web Development) 05/2024-07/2024

Developed full-stack applications using Flask + HTML, CSS, JavaScript
Designed MYSQL schemas, reducing storage cost by 10%
Automated reporting and log processing using Python
Performed unit testing, debugging, and Git version control.

PROJECTS

AI Shopping Assistant (Recommendation System + Chatbot)

Developed an AI-powered shopping assistant to recommend products based on user preferences using machine learning techniques. Implemented data preprocessing, feature engineering, and model building using Python with libraries such as Pandas, NumPy, and Scikit-learn. Designed a basic chatbot interface to enhance user interaction and improve recommendation experience.

Hyperlocal Service Marketplace (MERN Stack)

Built a full-stack web application for booking local services, similar to an Urban Company platform. Developed using MongoDB, Express.js, React.js, and Node.js, with features including user authentication, service booking, and admin dashboard. Designed RESTful APIs to ensure secure and scalable data handling.

Flex Fuel Wear Shop (Custom E-commerce Platform)

Developed a full-stack custom T-shirt printing platform with role-based access for admin, designer, and customer. Implemented product customization, cart, and order management features using the MERN stack with JWT authentication. Focused on building a scalable backend and responsive user interface.

Education

MCA in Computer Applications, BEC Bagalkote(GPA: 8.9/10) 12/2024 – 07/2026
BCA in Computer Applications , CES Vijayapura(GPA: 9.0/10) 10/2021 – 10/2024
